VERDUN BATTLES ARE IN A DEADLOCK

Italians Occupied Oppachiasella and Continue in Face of a Strong Defensive by the Austrians Who Seemingly Have Rallied From First Fright After Fall of Gorizia City.

(BY ASSOCIATED PRESS.)

LONDON, Aug. 12.—New advances for the Entente Allies on the Eastern and Italian fronts were reported today, but on the western front there was little change. The Germans claim to have repulsed French and British attacks north and south of the Somme, and the French and British in turn announce the checking of a German offensive in the same sectors.

In Galicia, Petrograd says that the Russians are making progress along the middle Sereth, having crossed the Koprive River and occupied two towns. Farther south in the Monastyrzyska region the Russians gained ground, while their steady advance toward Halicz and Lemberg continues.

Berlin says that the regrouping of the Austro-German forces in the Stanislaw region are being carried out in "accordance with our plans," the Russians having been checked in the Carpathian region with a loss of 700 men, according to Berlin. German troops are now aiding the Austrians in the defense of the Carpathian passes, while it is unofficially reported that a large number of Turks have been thrown into the same region.

The Italians continue to advance south of Gorizia in the direction of Trieste, having occupied Oppachiasella, six miles southwest of Gorizia. The Austrians are putting up a strong defensive.

Heavy attacks have been delivered by the Germans in the Somme region. The French artillery stopped the attacks against the French positions north and south of the river, while the attacks against the British in the Pozieres region resulted in a surprise. The French and British, according to Berlin, have also been active and delivered numerous attacks north and south of the Somme. The Germans, however, claim to have thrown the Allies back at all points.

The fighting continues around the Thiaumont works, in the Verdun region, the French attacks there being checked by the Germans. Paris claims the repulse of a German attack near Fleury.

The Russians in the Mush-Bilts district in Turkish Armenia have been driven back further by the Turks and the Turkish advance in Persia is progressing, Constantinople asserts. Petrograd says that obstinate fighting continues in that region with the Turks retreating in Bokana, Persia. Two German aeroplanes raided Dover, doing but little military damage.

Russians Announce Later Gains.

The French penetrated Maurepas village, taking 1,000 prisoners and thirty machine guns.

AGED MAN VICTIM OF AUTO ACCIDENT

T. S. MCGEE, CONFEDERATE VETERAN, RUN DOWN YESTERDAY IN CLAUDE.

(By The News.)

CLAUDE, Tex., Aug. 12.—T. S. McGee, a Confederate veteran and father of Mrs. J. H. Bailey and at present a resident of Claude, was knocked down and run over by an automobile at the railroad crossing at the station yesterday afternoon about seven. Both wheels of the car passed over him, breaking his left arm and two ribs on the right side.

In spite of his advanced age, McGee seems to be doing quite well this morning. The car was driven by T. S. Cavins, who is employed one of the most careful drivers in town. He took Mr. McGee to the Warner's office and then to his home and has done everything in his power to alleviate the suffering that is incidentally caused.

Those who saw the accident do not remember Mr. McGee for the moment. Mr. McGee stepping down is in front of the machine, his arm being due to a desire to inspect.

Mr. McGee was later sent to Amarillo for treatment.

Double Time is Only Hitch Now Between Brotherhoods and Employers for Peaceful Settlement.

(By Associated Press.)

WASHINGTON, Aug. 12.—It was predicted tonight, notwithstanding the failure of the mediation board to bring the railroads and their employees together that an arbitration agreement may be reached tomorrow. At the end of a day of continuing discussions the mediation board and the union leaders viewed the situation more optimistically. It being virtually conceded that the expansion of the arbitration board under the Newlands act may be accepted by the men. The railroads are already willing to arbitrate, but the union claim that they are not properly represented on the board. It became positively known tonight that double compensation for overtime is the stumbling block.

(By The News.)

GLOVIS, N. Scantlin started out on the "back street" from behind a series of bill boards on Washington avenue, the latter evidently obstructing the city fire wagon from view until he was within a few feet of the intersection. The right hand wheel of the fire wagon struck and his motorcycle was badly crushed and his skull fractured. In the collision one of his bones was broken and he was thrown thirty feet. Driver Lewis of the city wagon and Deputy Sheriff H. M. Jones at his side both state that they had no idea of the motorcycle being in view in front of the wagon. The orderly declared that while Captain Suoh was off New Orleans Tuesday she received a wireless from a British patrol boat on duty off the Atlantic coast saying that she had destroyed the Deutschland that morning. He said that the patrol boat reported the submarine sinking on the night of the eighth and that he had seen her wrecked on the morning of the ninth.

JONES CELEBRATION IS AIDED BY THOUSANDS OF FELLOW CITYMEN

PANHANDLE KID IS GIVEN A ROYAL RECEPTION BY THOSE OF HIS OWN BALIWICK LAST EVENING.

OUTSIDE SPEAKERS ALSO MAKE TALKS

Honoree is Cheered for Reference to the Wilson Administration—Speakers From Other Parts of the State Laud Panhandle Country's First Statesman to Enter Congress.

Amid the cheers of thousands of admiring friends, not only of Amarillo and Potter county, but from various parts of the district, Marvin Jones closed the jollification mass meeting program in the open air at the corner of Fifth and Polk streets last night.

This jollification brought representatives from Fort Worth, Canadian, Pampa, Panhandle, Canyon, Hereford, Tulsa, Clarendon, Claude, Memphis, Channing, Dalhart, Tulsa, Plainview and other places. There was marked enthusiasm among those present, and when the favorite of the people for Congress appeared on the platform there was an outburst of applause continuing for more than a minute.

Frequently interrupted by applause Mr. Jones brought forth an added round of cheers when he referred to the administration by Woodrow Wilson as president of the United States. This evidenced the fact that the people of this city and surrounding territory are strong for the administration.

This event was really the home coming after the count was made officially by the numerous county committees, and the people of this city and section of the country showed their unbounded pleasure over the victory by the Amarillo man.

J. L. Pope as chairman opened the meeting with a well ordered address. He spoke of the wonderful achievement of Marvin Jones, the honor that he had brought to his home people and the remarkable showing of a man, who, one year ago was, relatively speaking, an unknown quantity. Mr. Pope also mentioned the name of Lee Satterwhite, editor of the Panhandle Herald, of Pampa, who spoke in behalf of Carson county. Other speakers of the evening made short but pointed speeches in behalf of the honoree of the occasion. Prominent among these speakers were the following: Judge J. L. Peary of Fort Worth, Hon. E. A. Simpson of Clarendon, Judge L. C. Barrett, Rev. E. C. Mobley, Frank Livermore and E. T. Miller, all of Amarillo.

The fitting finale of the celebration and jollification came in the speech by the Hon. Marvin Jones. He told of his comparatively lack of support and encouragement when he started out on his campaign single handed and alone, driving his "jenny" and tacking up his own posters. He spoke at length with reference to the Panhandle country and the possibilities of the development of the Thirtieth Congressional district. This great district, the largest in population, and styled the "Great White Belt," within its confines reside 360,000 people. These people represent the progressive, energetic spirit of the west. Mr. Jones in referring to this spot quoted the poem by Paul Gray entitled "Where the West Begins." He stated that in going to Congress he would represent the whole people and the whole district and that if any man or set of men thought that they would receive from the line of duty, as he conceived it to be, they would most certainly be disappointed. In a few well chosen words of appreciation Mr. Jones sought to express his sincere thanks to the people and to his friends who so loyally supported him. Pledging them the best energies of his life in the endeavor to make this the Thirtieth Congressional District a worthy representative.

A feature of the celebration was a banner showing the complete ballot as received at the Marvin Jones Headquarters, the vote was as follows: Marvin Jones of Amarillo, 20,001; John H. Stephens of Vernon, 10,531; Reuben M. Ellard of Plainview, 10,329; and W. F. Prescott of Pecos, 2,419.

King Foley daughter, who was killed in the trolley wreck, was buried in the morning at the West End cemetery. The funeral was held at 10 o'clock. The casket was carried to the river by a team of mules. The funeral was held at 10 o'clock. The casket was carried to the river by a team of mules.
